MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Office of Training Report for the
Week of 10-14 April

I. Courses

(a) Advanced Intelligence Seminar

Basic planning for the next running 10 May-31 May is largely completed. Since we are not planning an out-of-town trip for this class, we intend to visit places of value to the course in the Washington area.

(b) China Familiarization

The course (10-14 April) was attended by 22 students including five students from WH Division, which is indicative of the impact that the world-wide activities of the People's Republic of China is having.

(c) Orientation for Overseas

This course conducted from 4-6 April had an enrollment of 52 students, 17 of whom were dependents. This is twice the size

of any single class in recent years. We attribute this largely to the memo dated 10 January 1972 from [REDACTED] in which the DD/P reminded all CS Division and Staff Chiefs of their responsibility to ensure proper indoctrination of dependents going overseas.

(d) Language

The last of the 130 tapes of the Basic Lao Course were recorded this week. This is the most extensive collection of taped Lao material in existence in the world and is a major contribution to the teaching of that language. Taping was started last September and completed two months earlier than expected. These tapes will be available to Agency employees; we also plan to make them available to FSI and DLI.
